

Funnel Plot: Screen Time and Depression Risk
Primary analysis (OR only, n=8); Kandola et al. (2021) excluded due to IRR
(EXPLORATORY - Small number of studies)

— Pooled estimate
- - - No effect (OR=1)
95% CI region

Note: This funnel plot is exploratory. With only 8 studies, visual inspection for publication bias has limited reliability. Egger's test is NOT performed (requires ≥ 10 studies).
